Key Benefits

- Total-Lok™ Memory Gauge
- Bottom Agitation
- Automatic Agitation Timer
- Variable Size Removable Nozzles
- Various Models & Sizes
- Two Year Limited Warranty
- Auto Accu-Purge

Description

- One gauge that locks into position for rapid and accurate tinting of multiple container orders.
- Single motor system that drives the bottom of the paddle drive shafts. No obstructions when adding colorant.
- Agitates automatically for 10 minutes every 7 hours. Manual override for more frequent or longer agitation.
- Improves flow and accuracy. Nozzles can be matched to colorant viscosity. Easily removed for fast, convenient cleaning. Sizes: S, M, L, XL.
- Rotary and Inline models to suit your space requirements.
- 1 year labor, two years parts, the best in the business!
- Ensures complete dispense reaches the can and reduces dripping and buildup.
